

ProFruit Machinery™ is a family-based company that started with a father and son and their shared desire to offer more fruit, berry and vegetable processing possibilities for both leaders of their market and businesses that aspire to become such one day.

For almost 10 years we have been working with various fruit, berry and vegetable processing equipment in our juice production-based company “Savos sultys”. This way we have tried and tested the equipment from almost all producers in the market including it’s leaders. We have gained an extensive experience working with all the equipment parts of the processing lines, we constantly communicate with other producers and users of this equipment and for these reasons we truly understand what the effective work in fruit, berry and vegetable processing field requires.

Our core values are reliability, the highest quality and comprehensive assistance to the client in all matters. These values are also supported by the fact that our team consists of true professionals who have been working in a food processing equipment industry for more than 20 years and are capable of ensuring all the best engineering solutions.

20 Plates	2000 l/h	1	6 000.00	80.00
30 Plates	3000 l/h	1	6 900.00	80.00
40 Plates		1	7 900.00	80.00
50 Plates		1	8 900.00	80.00
60 Plates		1	9 900.00	80.00

Optional	Price EUR.
Different fitting type/size	120.00
Inox V.220 single phase – 50Hz Pump	660.00
Inox V.400 three phase – 50Hz Pump	780.00
Double filtration kit	420.00
Central screw extension	130.00
40x40 Internal plate	48.00
40x40 External plate	52.00
40x40 Gaskets	6.00
Hydraulic manual closure system	1 900.00

1. Ex-works Lithuania.
2. Production time: 8-10 weeks.
3. Country of origin: EU.
4. Made from stainless steel materials.
5. Complies with EU standard CE certificates.
6. Payment terms – 50% with the order, 50% before loading the equipment.
7. Equipment is covered by 36-month warranty. Warranty period for bearings, engines and other bought parts are 12 months.

Plate Filter is made from many layers of cellulose filter pads, which repeatedly filtrate the liquid every time it comes through another filter layer. Machine has an integrated pump which supplies the liquid. Plate Filter is made from stainless steel AISI 304 and is available on wheels and in desk type.

The cellulose filter sheets are interchangeable and can have different specifications according to client's product and its needs. They provide different filtering surface and filtering capacity.

Available capacities: from 500 l/h to 10000 l/h (when filtrating wine).

Suitable for various liquids: wine, beer, oil, juice, cider pharmaceutical liquids and other.

- Liquids are filtrated by many layers of cellulose filter pads (sheets are not included).
- Filter sheets are interchangeable.
- Made from stainless steel AISI 304.
- Can be mounted on wheels or be in desk type.
