

ProFruit Machinery™ is a family-based company that started with a father and son and their shared desire to offer more fruit, berry and vegetable processing possibilities for both leaders of their market and businesses that aspire to become such one day.

For almost 10 years we have been working with various fruit, berry and vegetable processing equipment in our juice production-based company “Savos sultys”. This way we have tried and tested the equipment from almost all producers in the market including it’s leaders. We have gained an extensive experience working with all the equipment parts of the processing lines, we constantly communicate with other producers and users of this equipment and for these reasons we truly understand what the effective work in fruit, berry and vegetable processing field requires.

Our core values are reliability, the highest quality and comprehensive assistance to the client in all matters. These values are also supported by the fact that our team consists of true professionals who have been working in a food processing equipment industry for more than 20 years and are capable of ensuring all the best engineering solutions.

Manual bottle filler **GRAVITY** with 6 filling heads fills various liquids into the bottles.

The manual bottle filler is especially easy to use. The filling mechanism works based on gravity. The handle is pulled down and the strong stream of liquid flows out of the head.

- Capacity – 600 pcs. of 0,5 L bottles per hour.
- The bottle filler is completely made of stainless steel.
- Gravitational mechanism provides a strong stream as well as easy and effective work.
- Comes with a buffer tank for fluid.
- Buffer tank has an integrated flowmeter which helps to follow the liquid level on the buffer tank.
- Suitable for various liquids that are similar to water consistency such as juice, wine, vodka, etc.
- Mounted on the pivoting wheels.
