

ProFruit Machinery™ is a family-based company that started with a father and son and their shared desire to offer more fruit, berry and vegetable processing possibilities for both leaders of their market and businesses that aspire to become such one day.

For almost 10 years we have been working with various fruit, berry and vegetable processing equipment in our juice production-based company “Savos sultys”. This way we have tried and tested the equipment from almost all producers in the market including it’s leaders. We have gained an extensive experience working with all the equipment parts of the processing lines, we constantly communicate with other producers and users of this equipment and for these reasons we truly understand what the effective work in fruit, berry and vegetable processing field requires.

Our core values are reliability, the highest quality and comprehensive assistance to the client in all matters. These values are also supported by the fact that our team consists of true professionals who have been working in a food processing equipment industry for more than 20 years and are capable of ensuring all the best engineering solutions.

Monopump for fruit mash transfers grapes, other berries and different fruit, berry, or vegetable mash for further processing.

Monopump for fruit mash is designed for transferring various mashes, marcs and whole berries. Machine is perfect for destemmed grapes and fermented marcs.

Monopump consists of a screw conveyor and a wide loading hopper for more convenient unloading. The machine is entirely made from stainless steel. The control panel of the pump has a reverse gear.

- Suitable for whole berries (especially grapes) as well as fruit, berry or vegetable mash.
- Made from stainless steel AISI 304.
- Mounted on wheels.
- Has a reverse gear.
