

ProFruit Machinery™ is a family-based company that started with a father and son and their shared desire to offer more fruit, berry and vegetable processing possibilities for both leaders of their market and businesses that aspire to become such one day.

For almost 10 years we have been working with various fruit, berry and vegetable processing equipment in our juice production-based company “Savos sultys”. This way we have tried and tested the equipment from almost all producers in the market including it’s leaders. We have gained an extensive experience working with all the equipment parts of the processing lines, we constantly communicate with other producers and users of this equipment and for these reasons we truly understand what the effective work in fruit, berry and vegetable processing field requires.

Our core values are reliability, the highest quality and comprehensive assistance to the client in all matters. These values are also supported by the fact that our team consists of true professionals who have been working in a food processing equipment industry for more than 20 years and are capable of ensuring all the best engineering solutions.

The **Starcap Pneumatic Capper** is the ultimate solution for swiftly and precisely sealing various types of bottles and containers with ease.

**Performance: ~ 400 bottles/hour.**

- Cap wine bottles with corks, beer bottles with crown caps, and other containers with snap-on caps quickly and efficiently.
- This patented capper operates with air pressure, ensuring consistent and reliable performance.
- Wine corks are manually inserted into the cone, and with the press of two buttons, the cork is gently inserted into the bottle neck without compromising its integrity.
