

ProFruit Machinery™ is a family-based company that started with a father and son and their shared desire to offer more fruit, berry and vegetable processing possibilities for both leaders of their market and businesses that aspire to become such one day.

For almost 10 years we have been working with various fruit, berry and vegetable processing equipment in our juice production-based company “Savos sultys”. This way we have tried and tested the equipment from almost all producers in the market including it’s leaders. We have gained an extensive experience working with all the equipment parts of the processing lines, we constantly communicate with other producers and users of this equipment and for these reasons we truly understand what the effective work in fruit, berry and vegetable processing field requires.

Our core values are reliability, the highest quality and comprehensive assistance to the client in all matters. These values are also supported by the fact that our team consists of true professionals who have been working in a food processing equipment industry for more than 20 years and are capable of ensuring all the best engineering solutions.

4. Made from stainless steel materials.
5. Complies with EU standard CE certificates.
6. Payment terms – 50% with the order, 50% before loading the equipment.
7. Equipment is covered by 36-month warranty. Warranty period for bearings, engines and other bought parts are 12 months.

Tank with agitator is the perfect choice for containing and mixing various liquid products (including viscous products), such as different juice, puree, sauce, broth, etc. Tank with agitator is a great choice especially for mixing various juices, e.g. apple, carrot, berry, etc.

The agitator is attached through the side and secured with a special connection which does not spill any liquid. As an option, there is a frequency inverter in the mixer which lets to adjust the mixing speed.

Tank with agitator is made from stainless steel. There is an optional anti-dust cover for hygienic containment and protection from sun rays, dust and other substances. Tanks come in different sizes. There is a possibility to have inlet and outlet connections in different sizes on request.

- Available sizes: 100 L, 500 L, 1000 L, 1500 L, 2000 L.
- Open and closed options.
- Mounted on wheels.
- Stainless steel ensures longevity and quality of the product.
- Comes with anti-dust cover which protects the liquid inside.
- Stainless steel tanks are easy to clean after using.
